

MEDICAL MESSAGE THERAPY

If helping clients with their health and well-being interests you, take a look at medical massage therapy, where you can apply your passion for improving the quality of life for others through therapeutic massage. Massage therapy is now widely recognized as a reputable healing method in many hospitals, clinics and health centers. Massage therapists can play an important role in caring for a variety of medical issues, from rehabilitation of injuries to improving circulation, relieving stress and more.

Daymar's Medical Massage Therapy program focuses on Swedish, pre-natal, hot stone therapy, therapeutic, sports, and hydrotherapy massages. Daymar students will also have the opportunity to practice their skills in Daymar's massage clinic which allows students to gain experience and have the opportunity to build a clientele.

Career Overview for Medical Massage Therapist

Medical Massage Therapy graduates may have the opportunity to practice clinical massage to resolve conditions that have been diagnosed and prescribed by a physician or relaxation massage.

Clinical massage is typically practiced in hospitals, nursing homes, physicians' offices, wellness centers, rehabilitation clinics, and fitness centers. Relaxation massage is often connected to spas, resorts and in-home practices.

Skills That Are Helpful in Massage Therapy Field

Medical massage therapy is a hands-on and caring profession. Characteristics that many massage therapists demonstrate include compassion, observation, relationship building, empathy and organization.
